This diagram illustrates the assembly of a wheel onto a vehicle chassis. The components are numbered as follows:

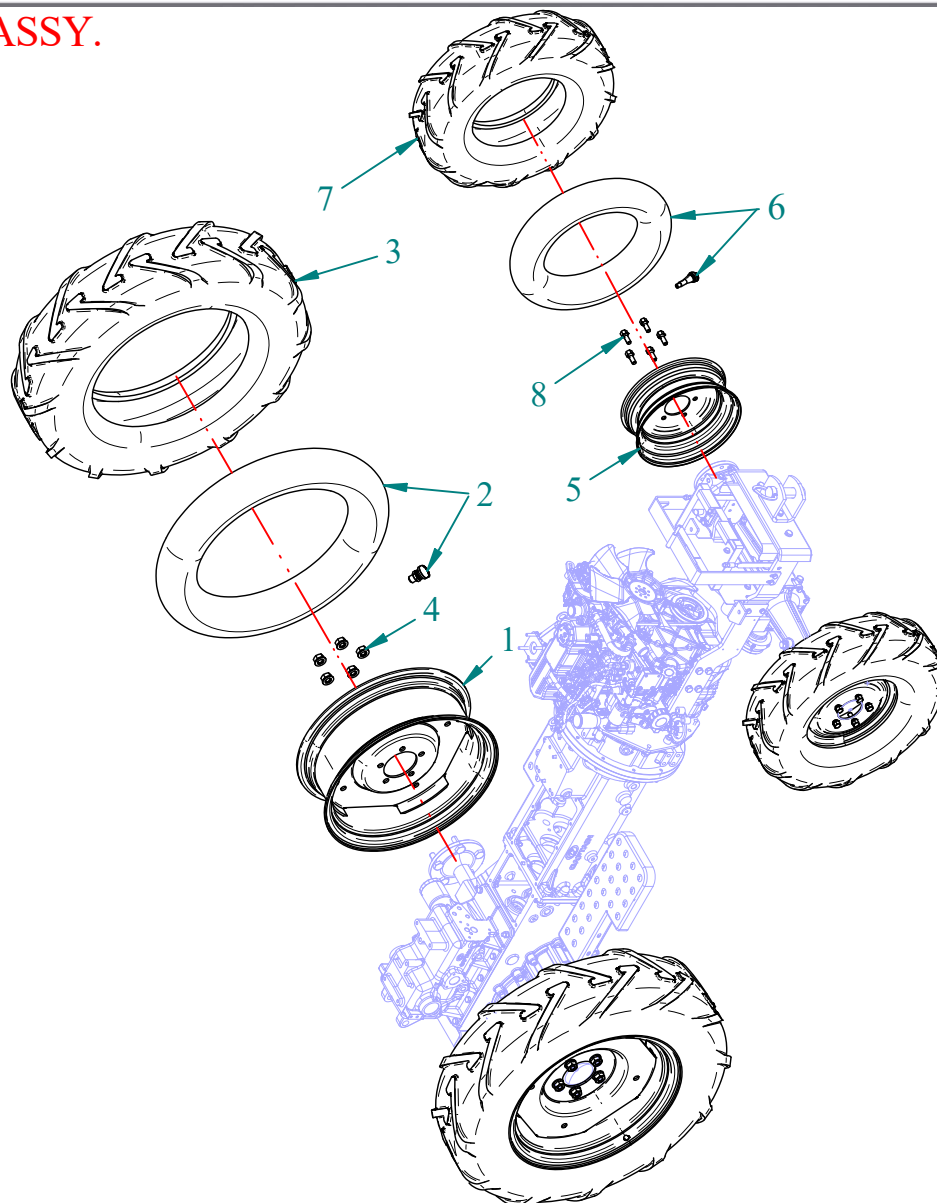

- 1:** The vehicle chassis, shown in a light blue outline.
- 2:** A large, smooth metal flange or hub.
- 3:** A large, treaded tire.
- 4:** A set of four small black bolts used to secure the flange to the axle.
- 5:** A metal rim or wheel.
- 6:** A small black pin or clip used to secure the tire to the rim.
- 7:** A second large, treaded tire.
- 8:** A set of four small black bolts used to secure the rim to the axle.

Red dashed lines indicate the alignment and assembly path for the components. The tire (3) is shown being placed onto the rim (5), which is then secured with bolts (8). The flange (2) is then attached to the axle with bolts (4). The final assembly is shown at the bottom right, mounted on the chassis (1).
